Experience

UI / UX Designer & Research Intern

Pusat Riset dan Inovasi Big Data Institut Teknologi Sumatera

Lampung, Indonesia - Internship

May 2021 - September 2021

I worked on the covid-19 zone mobile application research project in Bandar Lampung and South Lampung, led by the Head of the Center for Big Data Research and Innovation at the Sumatra Institute of Technology. I worked on the mockup design of the application and helped write a journal published in the proceedings of the international conference on advanced technology and multidiscipline (ICATAM) 2021: "Advanced Technology and Multidisciplinary Prospective Towards Bright Future" Faculty of Advanced Technology and Multidiscipline on October 13-14, 2021 in Surabaya, Indonesia. I cooperated and received feedback from other internship teams such as programmers, data analysts, data scientists, and Project heads.

UI / UX Designer

Skilvul

Jakarta, Indonesia - Internship

August 2021 - December 2021

- Internship

I attended Skilvul's UI/UX Design bootcamp for 8 weeks, then worked on the Redesign UI/UX challenge project from Skilvul's partner kitabisa.com, which project was to redesign the UI/UX of the latest news feature. I worked on the feature redesign using the design thinking method. I worked with 2 people in my group to create a style guide, wireframe, mockup, and prototype. This project was also assessed and received feedback directly from the skilvul mentor.

UI / UX Designer

GorryWell

Jakarta, Indonesia - Fulltime

Remote

September 2023 - December 2023

I worked on improving the GorryWell app by redesigning the UI/UX of some of the pre-existing features to make them better and more interactive. There I also worked on a project to create a design system for the GorryWell application. I worked in the product team, where I was with the product manager and qa engineer. In addition, I also collaborated a lot with frontend engineers from the IT team to synchronize the UI/UX design.

UI/UX Designer

RSIA Prima Qonita

Baturaja, Indonesia - Fulltime

December 2023 - March 2024

I worked on a project to create a web design for RSIA Prima Qonita, where I created the UI/UX design from scratch because the previous web was outdated and could not be compared, but the owner wanted a website that displayed information about his hospital and the types of services effectively. In addition, I also created UI/UX Design for the RSIA Prima Qonita employee attendance application. I got feedback from the head of the multimedia and IT unit, as well as direct feedback from the owner. The results I worked on were the final mockup of the RSIA Prima Qonita web design and the final mockup of the UI/UX Design of the RSIA Prima Qonita Employee Attendance Application.
